

Veterinary After-care Questionnaire

Thank you for your generous support of the MSNTF mission by providing post-surgical care for the many patients attended to at the event in your community. In the interest of providing veterinary care in future MSNTF events, we try to follow up on any post-surgical problems that you might encounter in your role as the follow-up veterinarian. The easiest way to do this is by providing you with the following form to fill out at your convenience.

We know you are very busy, again, thank you for your time and support of the MSNTF and its mission. Feel free to make copies of this form if needed.

**Problems include, but are not limited to: Bleeding, torn sutures, licking, abnormal swelling, reactions to suture material (seroma), and infection.*

Thank you for your time and expertise.
